This yearbook is the official guide to schools offering the International Baccalaureate Diploma, Middle Years and Primary Years programmes. It tells you where the schools are and what they offer, and provides up-to-date information about the IB programmes and the International Baccalaureate Organization.

This yearbook includes a detailed look at the curriculum, assessment, and evaluation of the International Baccalaureate programmes. It also provides information on the different assessment methods used in the programmes, including internal assessment, external assessment, and portfolio assessment. The book also includes case studies of schools that have successfully implemented the International Baccalaureate programmes, providing valuable insights into best practices and effective strategies for teaching and learning.

The yearbook also includes a comprehensive section on the history and development of the International Baccalaureate Organisation, providing a rich context for understanding the programmes and their impact on education around the world.

Overall, this yearbook is an invaluable resource for anyone interested in the International Baccalaureate programmes, whether they are educators, parents, or students. It provides a wealth of information and insights that can help guide decision-making and improve the quality of education for all learners.
Chemistry for the IB Diploma, Second edition, covers in full the requirements of the IB syllabus for Chemistry for first examination in 2016. This digital version of Chemistry for the IB Diploma Coursebook, Second edition, comprehensively covers all the knowledge and skills students need during the Chemistry IB Diploma course, for first examination in 2016, in a reflowable format, adapting to any screen size or device. Written by renowned experts in Chemistry teaching, the text is written in an accessible style with international learners in mind. Self-assessment questions allow learners to track their progress, and exam-style questions help learners to prepare thoroughly for their examinations. Answers to all the questions from within the Coursebook are provided.

Uniquely developed with the IB curriculum team, this fully comprehensive student book will ensure your students achieve their best. Fully capturing the IB philosophy via lots of TOK, a huge bank of practice, a free eBook and dedicated support for the Exploration will set you and your learners up to succeed.

This comprehensive and engaging text, developed in cooperation with the IB, follows the new curriculum for first assessment in 2022. With accessible, engaging lessons students will actively relate economics to real-world issues and the global economy. The international examples and case studies encourage students to analyse economics in terms of present-day challenges and concerns. Conceptual links are provided to help students understand the over-arching big questions that relate economics to the multi-faceted challenges of the world economy including how it works and changes over time. Through inquiry-based tasks and links to TOK and ATL activities students will gain a deep understanding of economics. Practice activities will develops the skills required to succeed in the IB assessment including exam-style questions and data response questions. Clear explanations will help students achieve assessment success. About the Series: Oxford's IB Diploma Course Books are essential resource materials designed in cooperation with the IB to provide students with extra support through their IB studies. Course Books provide advice and guidance on specific course assessment requirements, mirroring the IB philosophy and providing opportunities for critical thinking.
